Education

SRM Institute of Science and Technology **2023 - present**
B.Tech in Computer Science and Engineering *8.95 CGPA*

Kendriya Vidyalaya, Chittranajan **2021-2023**
All India Senior School Certificate Examination *82.6 %*

Kendriya Vidyalaya, Chittranajan **2013-2021**
All India Secondary School Examination *90.4 %*

Technical Skills

Technical: C, C++, Python, Java, OOPS, SQL, DSA, CSS Tailwind, HTML5.

Interpersonal: Communication/Negotiation, Team management, Decision making, Leadership, Collaboration.

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Problem Solving
- OOPS
- Database Management

Projects

Loan Prediction using Machine Learning | *Python,Google Collab,Jupiter notebook* **May 2025 - present**

- Developed a predictive model to identify potential defaulters for a consumer loans product using historic customer behavior data.
- Preprocessed and analyzed a dataset containing information about customers' income, age, profession, marital status, house and car ownership, state and city of residence, and years of experience in current job and residence.
- Utilized Chi-square test to find the relationship between the target variable and categorical variables and considered models such as Light GBM, XGBoost, Random Forest, and Extra Tree Classifier, with Light GBM achieving the highest accuracy of 90.97%

Diabities Prediction | *Python,Django,Visual Studio* **March 2025**

- Developed a machine learning model for predicting diabetes contraction based on 17 health indexes provided by the patient, using multiple models with different complexity for classification problems..
- Achieved the best performance with a random forest model, with an AUC-ROC area of 0.951 and accuracy of 92% in identifying patients who did and did not contract diabetes.
- Deployed a web application using Django, allowing users to input their health indexes and receive a prediction of their diabetes contraction risk.

Certificates and Achievements

- **Udemy C, C++, Python, Ruby** - Programming (11/2023)
- **Udemy OOPS** - (04/2024)
- **Pentathon participant**- Hackathon (02/2024)
- **Leap participant**- Hackathon (02/2024
- **Beyond the Bites participant**- Hackathon (07/2023
- **TCS**-Machine Learning by Tata Consulting Service
- **Koru Foundation**- Social Service Society where we teach poor children
- **Udemy**- Data Structure Algorithm , Python, HTML (01/2024)
- **SharpAIthon**-Hackathon (04/2024)
- **HackerRank**- SQL Basic, Problem Solving in C++ (present)
