RISHIT TANDON

Email: rishit.tandon.7@gmail.com | Phone: +91 7394865520 | Location: Kattankulathur | Portfolio

RESEARCH & TECHNICAL INTERESTS

- Glacier Lake Outburst Flood (GLOF) detection and monitoring
- AI/ML-based image processing for environmental hazard detection
- Drone/UAV systems and autopilot technologies
- LoRa-based long-range communication systems
- Remote sensing and real-time monitoring for disaster management

SKILLS

- Drone and UAV systems (hardware & software integration)
- Autopilot technologies
- LoRa-based long-range communication
- AI/ML-based image processing for glacial lake detection
- Remote sensing data analysis
- Python (OpenCV, TensorFlow) for computer vision
- C, C++, Java, MySQL, HTML, CSS, JavaScript

EXPERIENCE

Intern at DGTL Innovations (21st May - 15th July 2025)

EDUCATION

B.Tech in Computer Science and Engineering, 2023 – 2027
SRM Institute of Science and Technology, Kattankulathur Main Campus
(Current CGPA: 7.76)

PROJECTS

TREAT (Mar 2024 - Apr 2025)

- WhatsApp chatbot to find nearby free meal services.
- Location-based & multilingual food assistance.
- Event alerts for registered meal distributions.

KisanVikas (Sep 2024 – Mar 2025)

- IoT-based monitoring system tracking soil moisture, pH, and light intensity.
- Integrated multilingual chatbot for real-time guidance to farmers.
- Architecture and sensor integration similar to UAV-based glacial lake monitoring for GLOF early warning.

AISGR (May 2023 – Present)

- Smart glasses with real-time computer vision using Ollama LLaMA 3.2 Vision model.
- Processes live video feed, allowing users to highlight areas for AI-based analysis.
- Demonstrates advanced image processing and object recognition for environmental monitoring.

Ultron (Dec 2023 - Feb 2025)

- **AI-powered voice assistant** built in Python for hands-free smart tasks.
- **Multilingual & menu-driven** with real-time translation.
- Can **search, play music, fetch weather, manage files**, and more.

MedAssist (Mar 2024 - Apr 2024)

- Multilingual healthcare chatbot on WhatsApp for instant medical guidance.
- Supports English, Hindi, Tamil, Telugu, Bengali with voice & text interaction.
- Provides symptom checks, basic advice, and aids underserved areas.

Scam Detection App (Apr 2025 – Present)

- Comprehensive anti-scam Android app with phishing, scam call/SMS, and fake news detection.
- Financial fraud monitoring and AI-powered scam analysis.
- Uses Ollama Vision for advanced scam detection.

Multiverse (Jan 2025 – May 2025)

- Integrated real-time platform combining student projects via digital twins, IoT, and a shared infrastructure.
- Features Unity-based 3D visuals, custom cloud API, and smart city prototype with ESP8266 modules.
- Enhances collaboration, scalability, and engagement for classrooms, expos, and interdisciplinary projects**.**

Geo Tag Pro (Feb 2025 – Jun 2025)

- All-in-one anti-scam Android app with phishing, scam call/SMS, and fake news detection.
- Includes financial fraud monitoring and AI-driven scam analysis.
- Powered by Ollama Vision for advanced threat detection.

CineVerse (Jan 2025 – Present)

- Online movie streaming & casting platform with real-time synced playback.
- Includes chat features and interactive viewing.
- Private mode for personalized virtual movie nights.

Preliminary Work on GLOF Detection

AWARDS

- Outstanding Student of the
- 1st Place in SUTD: Smorphi competitionSingapore
- 1st Place in South India Regional Conclave
- 1st Place in Semiconductor Exhibition
- 1st Place in NWC expo
- 1st Place in CismoHack, nationals
- 2nd Place in C.Tech Project Expo
- 2nd Place in Arduino Hackathon
- 2nd Place in SUTD: Smorphi Competition, Singapore
- 3rd Place in BIS Hackathon
- 5th Place in SRM Founder's Hackathon
- 5th Place in SUTD: Smorphi Competition, Singapore
- Best Team in Metaverse Project expo
